ABOUT ME

Aspiring Data Scientist with a foundation in Python, SQL, data analysis, visualization, and machine learning. Experienced in building data-driven projects involving web scraping, exploratory data analysis, NLP, and predictive modeling. Strong problem-solving skills with hands-on experience in Pandas, NumPy, Scikit-learn, Excel, and Power BI.

TECHNICAL SKILLS

Programming Languages:

Python, SQL, JavaScript

Data Science Libraries: Pandas, NumPy, Matplotlib, Scikit-learn

Data Analysis & Visualization:

Excel, Power BI

Machine Learning: Supervised & Unsupervised Learning, Model Evaluation

Web Scraping: BeautifulSoup, Selenium

Web Technologies: HTML, CSS

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

CERTIFICATIONS

1. Data Science Foundations: Python Specific Stack
2. Fundamentals to Become a Machine Learning Engineer
3. Statistics for Machine Learning
4. Foundational Math for Machine Learning
5. Python Essential Training
6. Python Automation and Testing

SOFT SKILLS

1. Communication & Presentation
2. Analytical Thinking
3. Team Collaboration
4. Problem Solving
5. Leadership
6. Adaptability
7. Time Management

EDUCATION

Entri Elevate

June 2026 - December 2026

Advanced Program in Data Science - TN

KPR College Of Arts Science And Research

2023 - 2026

B.Sc. Artificial Intelligence and Machine Learning

CGPA: 8.9

Vidya Mandir Matric Higher Secondary School

2023

Computer Science - Mathematics (HIGHER SECONDARY)

PERCENTAGE: 86

PROJECTS

JOB MARKET SKILL ANALYSER

Tech Stack: Pandas, NumPy, Scikit-learn, BeautifulSoup, Requests, Streamlit

Built a job recommendation engine using web scraping, data preprocessing, TF-IDF, and cosine similarity to suggest relevant job opportunities based on user skills through a Streamlit application.

RESTAURANT REVIEW ANALYZER

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn

Analyzed restaurant datasets using data cleaning, preprocessing, EDA, and visualization techniques to identify insights on ratings, cuisines, locations, pricing trends, and customer preferences using Python libraries like Pandas, Matplotlib, and Seaborn.

WEB SCRAPING AUTOMATION - SELENIUM & BEAUTIFULSOUP

Tech Stack: Python, Selenium, BeautifulSoup, Requests, Pandas

Developed automated web scraping solutions using BeautifulSoup and Selenium to extract, process, and export structured book data from static and multi-page websites into CSV datasets for analysis.

PROFILE HIGHLIGHTS

1. AI & Machine Learning Graduate (**CGPA: 89.0**)
2. **9+ Python & Data Science** Projects
3. 30+ LinkedIn Learning courses completed across Python, Data Science, and technical skills.
4. Strong foundation in **Python, Excel, SQL & Power BI and Web Scraping - Automation**
5. Developed end-to-end Data Science projects

ACHIEVEMENTS & LEADERSHIP

1. Solved 100+ on GeeksforGeeks, strengthening algorithmic problem-solving skills.
2. Received Proficiency Award for academic performance.
3. Served as Department Secretary & Event Coordinator, contributing to academic and technical events.
4. Earned multiple certificates and recognitions for academic excellence, communication, presentations, and active participation in technical activities.
